

ANNOUNCEMENT

END OF SEMESTER EXAMINATIONS

In response to the COVID-19 pandemic, all IT Final Exams will be replaced with take-home open book examination or online examination. These measures are implemented to safeguard the health of our students and staff.

As all the assessments need to be downloaded from the LMS, it is imperative that each student is able to log in using his/her LMS account. These assessments are **COMPULSORY** if you wish to have a final grade for the module that you have enrolled in for this semester.

Please refer to the following schedules for the two types of assessments.

1. **Take Home Examination (download exam paper and submit answers by specific date and time)**
2. **Online Examination (to be completed on the LMS)**
